This document is meant to serve as an update to the Model Content Frameworks Pathway Summary Table. Instead of checks in the boxes to say that the standards are covered the boxes are now color coded to Major Content (green), Supporting Content (blue), and Additional Content (Yellow). If they are standards that are fluency based then the word “fluently” was also placed in the box. If the standard could be assessed in some way on the Performance Based Assessment then you see “PBA” in the box. All standards have a the possibility of showing up on the End of Year assessment.

This document was created by Jason Braddock using the PARCC model content frameworks and Evidence Tables.
